## From the Director's Desk

Dear Patrons,

This is a very exciting time for us at the Library since taking ownership of our Station Branch building! We have planned this for a while and are happy to say that we will now be a permanent resource in the community! I

hope this is a sign that better days are coming for us all. We have much to offer and are committed to serving our patrons in the best way possible.

We are back to having our Budget Vote and Trustee Election in the library on April 5, 2022. I hope you will come in to vote at our Main Street location between the hours of 10:00 am and 9:00 pm. Please see the election information under Library News on page 2.

As we move into the spring season, a time of new growth and rebirth, let's hope it's also a new beginning for all that is going on around us. I know this continues to be a difficult time for many people. If there is anything that we can do to help anyone, please don't hesitate to reach out to me at 631-427-5165, ext. 206 or email me at [joanne\\_adam@huntlib.org](mailto:joanne_adam@huntlib.org).

Wishing you all good health in the days ahead.

**We are very excited to announce that we now have a permanent home in Huntington Station!**

After many years of renting space, we are delighted to report that we recently purchased our Station Branch building! This is a very important milestone for the library which sends a strong message to the Huntington Station community that the library is here to stay! This will ensure library service for the future, while saving the taxpayers money from increasing rent payments.

We presently offer many programs and services for all ages, as well as the use of technology, and meeting space for community groups. Now we can consider expanding these services to meet the ever-changing needs of the community. The Board of Trustees, as well as the administration and staff of the library, is proud to be part of this special achievement!

### Congratulations Harvey on Your Retirement

Harvey Balopole, our resident library wizard, retired in early October after 21-years of service at Huntington Public Library. It's hard to fit such a dynamic person into a small paragraph. Known for his sense of humor, warmth and unbounding creativity Harvey was loved by fellow staff members and patrons alike. There wasn't a problem he couldn't solve, a machine he couldn't fix and a person he wouldn't help. Harvey, a Librarian Assistant, was a regular face in our Customer Services department. He pioneered Huntington Library's 3D printer program and performed many library programs with his band the Queazles. While we will all miss working with him, we look forward to seeing Harvey as a patron in the future, and we wish him all the best in his retirement!

## 3D Printing Design Center at the Main

## Frequently Asked Questions

### Where do I find objects to print?

If you want to use objects that have already been designed, you can go to [www.thingiverse.com](http://www.thingiverse.com) and search using keywords. Once you've found what you want, download the files and send them to us at [hpl3dp@gmail.com](mailto:hpl3dp@gmail.com).

### Can I design my own objects?

Yes! We encourage you to go to [www.tinkercad.com](http://www.tinkercad.com) and learn how to design your own parts. There are lessons right there on the website. You can set up a free account in just a few minutes. Once you've designed your part, you can export the file and email it to us.

### How much does it cost to print an item?

The only thing you pay for is the PLA filament you use. We charge **\$1.00** per hour of print time. A typical print can take 4 or 5 hours.

### How large can my print be?

Our printer can produce objects up to 11 x 11 x 15 inches. However, your print time must be less than 12 hours so that we can accomplish the print during normal library business hours. Therefore, certain objects will not fall into the range of acceptability.

### Is there anything we will not print?

We will not print objects that are prohibited by law (i.e. weapons).

### How can I learn more about this?

Feel free to call during normal library hours, or send an email with questions to [hpl3dp@gmail.com](mailto:hpl3dp@gmail.com).

## Animals Real and Imagined: Paintings, Prints, and Drawings

Annie Shaver-Crandell

Annie Shaver-Crandell has been drawing and painting animals since she was young enough to use up all the green crayons in her possession in order to provide pastures for the horses she loved to draw. The present exhibition, *Animals Real and Imagined: Paintings, Prints and Drawings*, includes portraits of animals in their own surroundings, some as pets, some as working animals, some as pests, and a few animals not of our known world. The artist works in a number of mediums, depending on what has suited her best.

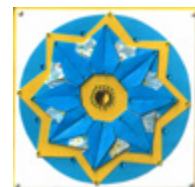

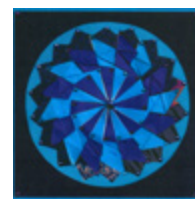

## Main Street Display Cases

March 1 – 31, 2022

## Origami by Marsha Tovim

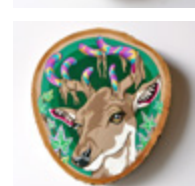

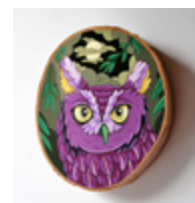

Marsha Tovim's 25-year journey creating origami unfolds like a Japanese folk tale. Fascinated with the delicate art since childhood, Tovim was fortunate years later to meet a Japanese woman at the John Hume Japanese Stroll Garden, and for 6 months Tovim taught her English in exchange for origami lessons. Her desire to master origami was also inspired by the story *"Sadako and the Thousand Paper Cranes"*. This exhibit features some of Tovim's best work: originally designed cards, ornaments, and framed art pieces.

April 1 – 30, 2022

## Other Shores: The Art of Sage Cotignola

This exhibition features Sage Cotignola's *"Nature Spirits"* series, a collection of works painted in gouache on birch and basswood rounds. The ongoing series celebrates the peculiarities of the naturalistic world and the cyclic harmonies found in nature. Inspired by existing flora and fauna, the paintings veer into the otherworldly through color, pattern and symbolic narrative elements. Cotignola is a Brooklyn-based Illustrator originally from the East End of Long Island. In addition to creating paintings for exhibitions throughout New York and beyond, Sage creates custom artwork, editorial illustrations, album covers, comics and mural designs. Her work can be found at [SageCotignola.com](http://SageCotignola.com).
