## **INDEPENDENT AUDITOR'S REPORT**

The Board of Trustees  
Huntington Public Library  
338 Main Street  
Huntington, New York 11743

We have audited the accompanying basic financial statements of the governmental activities and each major fund of Huntington Public Library as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the Library's basic financial statements as listed in the table of contents.

### **Management's Responsibility for the Financial Statements**

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### **Auditor's Responsibility**

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

**INDEPENDENT AUDITOR'S REPORT**

**Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of the Huntington Public Library, as of June 30, 2019, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

**Other Matters**

*Required Supplementary Information*

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, the schedule of proportionate share of the net pension liability, the schedule of library pension contributions and the schedule of changes in the Library's total OPEB liability and related ratios on pages 5 through 10 and 36 through 42 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

## MANAGEMENT'S DISCUSSION AND ANALYSIS

### Using This Annual Report

This annual report consists of three parts-*management's discussion and analysis* (this section), the *basic financial statements*, and *required supplementary information*. The basic financial statements include information that presents two different views of the Library:

- The first five columns of these financial statements include information on the Library's funds under the modified accrual method. These *Fund Financial Statements* focus on current financial resources and provide a more detailed view about the accountability of the Library's sources and uses of funds.

The adjustment column of the financial statements represents adjustments necessary to convert the fund financial statements to the government-wide financial statements under the full-accrual method.

- The *government-wide financial statement* columns provide both long-term and short-term information about the Library's overall financial status. The statement of net position and the statement of activities provide information about the activities of the Library as a whole and present a longer-term view of the Library's finances. These statements tell how these services were financed in the short term as well as what remains for future spending.

The financial statements also include *notes* that explain some of the information in the financial statements and provide more detailed data. The statements are followed by a section of *required supplementary information* that further explains and supports the information in the financial statements.

## **MANAGEMENT'S DISCUSSION AND ANALYSIS**

**(Continued)**

### **The Library as A Whole**

- The Library's net position increased by \$139,049 this year. This was primarily the result of lower spending than anticipated as explained in the budgetary highlights below.
- The Library's primary source of revenue is from property tax revenues, which represents 97.0 percent of total revenue. In the prior year revenue from property taxes represented 98.0 percent of total revenue.
- As is typical of service agencies, salaries and benefits are a significant expense of the Library, representing 75.5 percent of the Library's total expenses (as per the Statement of Activities). In the prior year, salaries and benefits represented 74.4 percent of the Library's total expenses.

### **The Library Funds:**

Our analyses of the Library's funds are included in the first five columns of pages eleven through fourteen on the respective statements. The fund columns provide detailed information about the most significant funds – not the Library as a whole. The Library Board has the ability to create separate funds to help manage money for specific purposes and to maintain accountability for certain activities. Currently, the Library's funds consist of the General Fund, the Capital Fund, the Grant Fund, and the Trust and Agency Fund.

The fund balance of the General Fund increased during the year from \$4,518,131 to \$5,215,271. The fund balance of the Capital Fund decreased from \$1,511,507 to \$1,201,311. The fund balance of the Grant Fund remained at a deficit of \$14. The fund balance for the Trust & Agency Fund remained at \$0.

### **Budgetary Highlights:**

The following are explanations for the significant variations between the Library's final budget and the actual results of the General Fund:

- The Library received less fines, fees and sales income than anticipated. The Library attributes this to greater patron use of the Library's auto-renewal system and downloadable items that do not incur fines.
- The Library received more program revenues than expected due to offering additional sessions of its most popular programs as well as its fee-based programs such as yoga, fitness, etc.
- There were favorable budget variances in the revenue lines for both payments in lieu of taxes as well as other grants and aid. The Library generally budgets conservatively for this income because it is not a guaranteed source of revenue each year.

## **MANAGEMENT'S DISCUSSION AND ANALYSIS**

**(Continued)**

### **Budgetary Highlights: (Continued)**

- The Library received more interest income than had been budgeted. This was due to being able to invest in certificates of deposit and other interest-bearing accounts that were yielding higher rates than had been expected.
- The budget line for dental and optical insurance was underspent as premiums actually decreased as opposed to increasing. In addition, fewer staff than anticipated were eligible for coverage.
- The budget line for workers compensation and disability was underspent by \$29,515. The Library attributes this to lower premiums and fewer claims than had been anticipated.
- In total, the library services/materials budget section was underspent by \$26,311. Many of the variances offset one another and are due to the changing trends and migration to digital and downloadable versions of various materials. The various budget lines for children's books and reference/standing order books were underspent primarily because purchasing slowed. The Library attributed this to a variety of factors such as limited shelf space for new purchases, being more selective in order to reduce costs, as well as the public desire for more materials in an electronic format as opposed to the print format. Hence the over-expenditure of the electronic resource budget line. The budget line for adult books was overspent in order to accommodate the Library's growing hold lists. The budget line for processing was underspent because the Library has outsourced fewer materials for processing than anticipated. The budget line for periodicals was underspent because the Library continues to realize savings from the transition to Rivistas for their print magazines. The Library has also cancelled subscriptions for less popular titles. The budget line for D.V.D.'s was underspent whereas the budget line for downloadables was overspent. This is due to the fact that the Library has reduced purchases of the physical items and has instead been offering various options for streaming services and digital versions of movies. The budget line for programs- adult was overspent as additional programs were added, many of which were sponsored by the Friends of the Library. The budget lines for children's programs and Station programs were both underspent because more programs were run by in-house staff. This was less expensive than having to pay outside vendors.
- The budget line for library and general supplies was underspent by \$9,323. This was due to continued streamlining of ordering and by soliciting competitive bids from our vendors.
- The budget line for integrated library system has a favorable variance of \$12,011. As the Library has transitioned back to the PALS consortium through SCLS savings were realized.
- The budget line for software/automation was underspent as the Library migrated to less expensive software platforms and reduced the number of user licenses in other software when possible.

**MANAGEMENT'S DISCUSSION AND ANALYSIS**  
**(Continued)**

**Budgetary Highlights: (Continued)**

- The budget line for staff training was underspent by \$10,140. Due to the building renovations and limited availability of space, the Library did not have many opportunities for in-house training.
- The budget line for travel and professional meetings was underspent because fewer staff members traveled for conferences during the fiscal year. Many of the conferences that were attended were local which reduced airline and hotel costs.
- The budget line for minor furniture and equipment was underspent by \$12,675. This was partially because certain purchases were postponed during the construction project and partially because the Library has tried to repurpose as much furniture and equipment as possible.
- The budget line for insurance was underspent by \$21,102. This was partially due to lower premiums than expected and partially because the Library received a safety dividend from their insurance carrier.
- The budget line for electric/power was underspent by \$71,473. The Library attributes this cost savings to their LED efficient lighting, the new HVAC system, and the installation of their building management system that allows for offsite climate control. An analysis by PSEG showed a 50% reduction in energy use as compared to 2017.
- The budget line for maintenance supplies was underspent as the Library continues to show savings from streamlining its purchasing, soliciting competitive pricing from its vendors, and ceasing to order paper towels in lieu of greener options like hand dryers, etc.
- The capital outlay budget section was underspent by \$57,899. Although the Library did make a significant investment in new Motorola radios for the security team, anticipated computer purchases were not closed by the end of the fiscal year. In addition, the Library did not proceed with some of the building improvements that it had planned, and others, which were expected to be paid for from the General Fund, were paid for by the Capital Fund.

**Capital Assets:**

Capital outlay totaled \$547,648 for the current year. The majority of the purchases (\$331,953) were for building improvements primarily related to the renovation project. The remaining expenditures were for a wide variety of items such as furniture, computer equipment, etc. During the year the Library also discarded broken or obsolete equipment with an estimated original cost of \$21,291.

**MANAGEMENT'S DISCUSSION AND ANALYSIS**  
**(Continued)**

**Debt Administration:**

The only long-term debt that the Library has to its employees is for unused sick and vacation time (compensated absences), its net pension liability and its obligation for other post-retirement benefits. As of June 30, 2019, the Library's liability for unused sick and vacation time (compensated absences) was \$364,829. This represents a decrease of \$27,566 from the previous year. The net pension liability at June 30, 2019 was \$1,006,796. This represents an increase of \$561,722 from the previous year. The Library's obligation for other post-employment benefits at June 30, 2019 was \$10,786,712. This represents an increase of \$999,208 from the previous year.

**Currently Known Conditions:**

The Library budget vote for the 2019-2020 fiscal year was approved by the taxpayers. The anticipated tax revenues will be \$9,065,970.

**HUNTINGTON PUBLIC LIBRARY**  
**NOTES TO FINANCIAL STATEMENTS**  
**JUNE 30, 2019**

**NOTE 1: Summary of Significant Accounting Policies**

The accounting policies of Huntington Public Library conform to accounting principles generally accepted in the United States of America as applicable to governmental units. Accordingly, in June 1999, the Governmental Accounting Standards Board issued Statement No. 34, *Basic Financial Statements – and Managements Discussion and Analysis – for State and Local Governments*. Some of the significant changes in the statement include the following:

- A Management's Discussion and Analysis section providing an analysis of the Library's overall financial position and results of operations.
- Financial statements prepared using full accrual accounting for all of the Library's activities.
- A change in the fund financial statements to focus on the major funds.

The following is a summary of the significant accounting policies:

- A. **Reporting Entity:** The Huntington Public Library coordinates the raising of its real estate tax revenues with the Huntington Union Free School District. The Board of Trustees is responsible for the approval of the annual budget and oversight of the Library management's control and disbursement of funds and maintenance of assets. The Library's management is solely responsible for day-to-day operations.
- B. **Management Focus, Basis of Accounting and Financial Statement Presentation:** The Library's basic financial statements include both government-wide (reporting the Library as a whole) and fund financial statements (reporting the Library's major funds).

**Government-Wide Financial Statements:** The government-wide financial statements (i.e. the Statement of Net Position and the Statement of Activities) are reported using the economic resources measurement focus and the accrual basis of accounting. Revenue is recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenue in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. The effect of interfund governmental activity has been eliminated from the government-wide financial statements.

The Statement of Net Position includes and recognizes all long-term assets and receivables as well as long-term debt and obligations. The Library's net position is reported in three parts- net investment in capital assets; restricted net position; and unrestricted net position.

NOTES TO FINANCIAL STATEMENTS  
JUNE 30, 2019**

**NOTE 1: Summary of Significant Accounting Policies (Continued)**

**B. Management Focus, Basis of Accounting and Financial Statement Presentation:  
(Continued)**

**Fund Financial Statements:** Governmental fund financial statements are reported using the modified accrual basis of accounting prescribed by the Governmental Accounting Standards Board and the State of New York's Department of Audit and Control, Division of Municipal Affairs. Under this method, revenues are recognized in the period in which they become both measurable and available. The Library considers all revenues reported in the governmental funds to be available if the revenues are collected within a reasonable period of time after fiscal year end, except for real property taxes, which are considered to be available if they are collected within sixty days after the end of the fiscal year. Fees and other income items other than interest income are recorded when received in cash. Expenditures are recognized in the period in which the liability is incurred. However, debt service expenditures, if applicable, are recorded only when a payment is due.

The Library reports on the following funds:

**General Fund:** This fund is established to account for resources devoted to the general services that the Library performs for its patrons. General tax revenues and other sources of revenues used to finance the fundamental operation of the Library are included in this fund.

**Capital Fund:** This fund is established to account for resources devoted to construction and renovation of the Library.

**Grant Fund:** Specified grant revenues and expenditures whether funded by New York State, the Federal Government, or private industry are accounted for separately in the Grant fund.

**Trust and Agency Fund:** Used to account for money (and/or property) received and held in the capacity of trustee, custodian or agent.

**C. Use of Estimates:** The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statement and the reported amounts of revenues and expenditures during the period. Actual results could differ from those estimates.

**NOTE 1:**      **Summary of Significant Accounting Policies (Continued)**

**D.      Budgetary Accounting:**      Formal budgetary accounting is employed as a management control of the general fund. Expenditures are compared to actual results in the report.

**E.      Fund Balance Classifications:**      The Governmental Accounting Standards Board (GASB) issued Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions* that defines the different types of fund balances that a governmental entity must use for financial reporting purposes. They are as follows:

**Nonspendable:**      This includes amounts that cannot be spent because they are either not in spendable form (i.e. inventories, prepaid expenses, etc.) or they are legally or contractually required to be maintained intact.

**Restricted:**      This includes amounts with constraints placed on the use of resources. These constraints can be externally imposed by creditors, grantors, contributors, or imposed by laws and regulations.

**Committed:**      This includes amounts that can only be used for the specific purposes pursuant to constraints imposed by formal action of the Library's Board. Those committed amounts cannot be used for any other purpose unless the government removes or changes the specified use by taking the same type of action it employed to previously commit those amounts.

**Assigned:**      This includes amounts that are constrained by the Library's intent to be used for specific purposes, but are neither restricted nor committed. The Library Board is not required to impose or remove the constraint. Assignments of fund balance cannot be made if it would result in a negative unassigned fund balance.

**Unassigned:**      This includes the residual classification for the Library's general fund. This classification represents fund balance that has not been assigned to other funds, assigned for specific purposes, restricted, or committed.

**F.      Order of Use of Restricted/Unrestricted Net Position and Fund Balance:**      When an expense is incurred for purposes for which both restricted and unrestricted net position is available, the Library's policy is to apply restricted net position first. Expenditures incurred from unrestricted resources are applied to committed fund balance as determined by the Board, then to assigned fund balance, and then to the unassigned fund balance.

**NOTE 1:**      **Summary of Significant Accounting Policies (Continued)**

- G.    Interfund Transactions:**    The operations of the Library include transactions between funds. These transactions may be temporary in nature, such as with interfund borrowings. The Library typically loans resources between funds for cash flow purposes. These interfund receivables and payables are expected to be repaid within one year. Permanent transfers of funds include transfers to provide financing or other services. This includes the transfer of unrestricted General Fund revenues to finance various expenditures that the Library must account for in other funds in accordance with budgetary authorizations.
- H.    Investments:**    The Library's investment policies are governed by State statutes and its own written investment policy. Permissible investments for the Library include special time deposit accounts, certificates of deposit as well as obligations of the United States of America and New York State.
- I.    Capital Assets:**    Capital assets are defined by the Library as assets with an initial cost of at least \$500 and an estimated useful life of more than two years. Such assets are recorded at historical cost or estimated historical cost. Donated assets are reported at estimated fair market value at the date of donation. Additions, improvements, and other capital outlays that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance are expensed as incurred. The Library land and building has not been capitalized as it is owned by the School District. Library books and materials are not capitalized. Depreciation is provided on the straight-line basis over the following estimated lives:

Furniture and equipment	5 to 7 years
Fixtures	20 years
Building improvements	40 years

**NOTE 2:**      **Cash and Cash Equivalents**

The Library has defined cash and cash equivalents to include cash on hand, demand deposits, and short-term investments with a maturity of three months or less.

**NOTE 3:**      **Concentration of Credit Risk**

The Library maintains all of its cash balances at two banks. At year end, the Library's carrying amount of deposits was \$6,926,737 (excludes petty cash) and the bank balance was \$6,937,300. Of the bank balance, \$930,929 was covered by federal depository insurance and the remaining balance was covered by collateral in the form of an irrevocable Letter of Credit.

**NOTE 11: Retirement Plan**

- A. Plan Description and Benefits Provided:** The Huntington Public Library participates in the New York State and Local Employees' Retirement System (the System). This is a cost-sharing multiple-employer retirement system. The System provides retirement benefits as well as death and disability benefits. The net position of the System is held in the New York State Common Retirement Fund (the Fund), which was established to hold all net assets and record changes in plan net position allocated to the System. The Comptroller of the State of New York serves as the trustee of the Fund and is the administrative head of the System. The Comptroller is an elected official determined in a direct statewide election and serves a four year term. Thomas P. DiNapoli has served as Comptroller since February 7, 2007. In November 2018, he was elected for a new term commencing January 1, 2019. System benefits are established under the provisions of the New York State Retirement and Social Security Law (RSSL). Once a public employer elects to participate in the System, the election is irrevocable. The New York State Constitution provides that pension membership is a contractual relationship and plan benefits cannot be diminished or impaired. Benefits can be changed for future members only by enactment of a State statute. The Huntington Public Library also participates in the Public Employees' Group Term Life Insurance plan (GTLI), which provides death benefits in the form of life insurance. The System is included in the State's financial report as a pension trust fund. That report, including information with regard to benefits provided, may be found at [www.osc.state.ny.us/retire/publications/index.php](http://www.osc.state.ny.us/retire/publications/index.php) or obtained by writing to the New York State and Local Retirement System, 110 State Street, Albany, NY 12244.

JUNE 30, 2019**

**NOTE 11:     Retirement Plan (Continued)**

- B.     Benefits Provided:** The System provides retirement benefits as well as death and disability benefits.

*Tiers 1 and 2*

Eligibility: Tier 1 members, with the exception of those retiring under special retirement plans, must be at least age 55 to be eligible to collect a retirement benefit. There is no minimum service requirement for Tier 1 members. Tier 2 members, with the exception of those retiring under special retirement plans, must have five years of service and be at least age 55 to be eligible to collect a retirement benefit. The age at which full benefits may be collected for Tier 1 is 55, and the full benefit age for Tier 2 is 62.

Benefit Calculation: Generally, the benefit is 1.67 percent of final average salary for each year of service if the member retires with less than 20 years. If the member retires with 20 or more years of service, the benefit is 2 percent of final average salary for each year of service.

Tier 2 members with five or more years of service can retire as early as age 55 with reduced benefits. Tier 2 members age 55 or older with 30 or more years of service can retire with no reduction in benefits. As a result of Article 19 of the RSSL, Tier 1 and Tier 2 members who worked continuously from April 1, 1999 through October 1, 2000 received an additional month of service credit for each year of credited service they have at retirement, up to a maximum of 24 additional months. Final average salary is the average of the wages earned in the three highest consecutive years. For Tier 1 members who joined on or after June 17, 1971, each year of final average salary is limited to no more than 20 percent of the previous year. For Tier 2 members, each year of final average salary is limited to no more than 20 percent of the average of the previous two years.

*Tiers 3, 4, and 5*

Eligibility: Tier 3 and 4 members, with the exception of those retiring under special retirement plans, must have five years of service and be at least age 55 to be eligible to collect a retirement benefit. Tier 5 members, with the exception of those retiring under special retirement plans, must have 10 years of service and be at least age 55 to be eligible to collect a retirement benefit. The full benefit age for Tiers 3, 4 and 5 is 62.

**NOTE 11:**     **Retirement Plan: (Continued)**

**B.     Benefits Provided: (Continued)**

**Tiers 3, 4, and 5 (Continued)**

Benefit Calculation: Generally, the benefit is 1.67 percent of final average salary for each year of service if the member retires with less than 20 years. If a member retires with between 20 and 30 years of service, the benefit is 2 percent of final average salary for each year of service. If a member retires with more than 30 years of service, an additional benefit of 1.5 percent of final average salary is applied for each year of service over 30 years. Tier 3 and 4 members with five or more years of service and Tier 5 members with 10 or more years of service can retire as early as age 55 with reduced benefits. Tier 3 and 4 members age 55 or older with 30 or more years of service can retire with no reduction in benefits. Final average salary is the average of the wages earned in the three highest consecutive years. For Tier 3, 4 and 5 members, each year of final average salary is limited to no more than 10 percent of the average of the previous two years.

**Tier 6**

Eligibility: Tier 6 members, with the exception of those retiring under special retirement plans, must have 10 years of service and be at least age 55 to be eligible to collect a retirement benefit. The full benefit age for Tier 6 is 63.

Benefit Calculation: Generally, the benefit is 1.67 percent of final average salary for each year of service if the member retires with less than 20 years. If a member retires with 20 years of service, the benefit is 1.75 percent of final average salary for each year of service. If a member retires with more than 20 years of service, an additional benefit of 2 percent of final average salary is applied for each year of service over 20 years. Tier 6 members with 10 or more years of service can retire as early as age 55 with reduced benefits.

Final average salary is the average of the wages earned in the five highest consecutive years. For Tier 6 members, each year of final average salary is limited to no more than 10 percent of the average of the previous four years.

**Ordinary Disability Benefits**

Generally, ordinary disability benefits, usually one-third of salary, are provided to eligible members after 10 years of service; in some cases, they are provided after five years of service.

**Accidental Disability Benefits**

For all eligible Tier 1 and Tier 2 ERS members, the accidental disability benefit is a pension of 75 percent of final average salary, with an offset for any Workers' Compensation benefits received. The benefit for eligible Tier 3, 4, 5 and 6 members is the ordinary disability benefit with the years-of-service eligibility requirement dropped.

**HUNTINGTON PUBLIC LIBRARY**  
**NOTES TO FINANCIAL STATEMENTS**  
**JUNE 30, 2019**

**NOTE 11:**    **Retirement Plan: (Continued)**

**B.    Benefits Provided: (Continued)**

*Ordinary Death Benefits*

Death benefits are payable upon the death, before retirement, of a member who meets eligibility requirements as set forth by law. The first \$50,000 of an ordinary death benefit is paid in the form of group term life insurance. The benefit is generally three times the member's annual salary. For most members, there is also a reduced post-retirement ordinary death benefit available.

*Post-Retirement Benefit Increases*

A cost-of-living adjustment is provided annually to: (i) all pensioners who have attained age 62 and have been retired for five years; (ii) all pensioners who have attained age 55 and have been retired for 10 years; (iii) all disability pensioners, regardless of age, who have been retired for five years; (iv) ERS recipients of an accidental death benefit, regardless of age, who have been receiving such benefit for five years and (v) the spouse of a deceased retiree receiving a lifetime benefit under an option elected by the retiree at retirement.

An eligible spouse is entitled to one-half the cost-of-living adjustment amount that would have been paid to the retiree when the retiree would have met the eligibility criteria. This cost-of-living adjustment is a percentage of the annual retirement benefit of the eligible member as computed on a base benefit amount not to exceed \$18,000 of the annual retirement benefit. The cost-of-living percentage shall be 50 percent of the annual Consumer Price Index as published by the U.S. Bureau of Labor, but cannot be less than 1 percent or exceed 3 percent.

- C.    Contributions:**    The System is noncontributory except for employees who joined the New York State and Local Employees' Retirement System after July 27, 1976, who contribute 3 percent of their salary for the first ten years of membership, and employees who joined on or after January 1, 2010 (ERS) who generally contribute 3 percent of their salary for their entire length of service. Under the authority of the NYSRSSL, the Comptroller annually certifies the actuarially determined rates expressly used in computing the employers' contributions based on salaries paid during the Systems' fiscal year ending March 31. Contributions for the current year and two preceding years were equal to 100 percent of the contributions required. The required contribution for the current fiscal year was \$543,907, for the 2018 fiscal year it was \$536,535 and for the 2017 fiscal year it was \$577,092.

**NOTE 11: Retirement Plan (Continued)**

**D. Pension Liabilities, Pension Expenses, Deferred Outflows of Resources and Deferred Inflow of Resources Related to Pensions:** At June 30, 2019, the Huntington Public Library reported a liability of \$1,006,796 for its proportionate share of the net pension liability. The net pension liability was measured as of March 31, 2019, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The Huntington Public Library's proportion of the net pension liability was based on a projection of the Huntington Public Library's long-term share of contributions to the pension plan relative to the projected contributions of all participating members, actuarially determined.

At June 30, 2019, the Huntington Public Library's proportion was 0.0142096 percent which was an increase of .0004193 percent from its proportion measured at June 30, 2018.

For the year ended June 30, 2019, the Huntington Public Library recognized pension expense of \$645,260. At June 30, 2019, the Huntington Public Library reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<b><u>Deferred Outflow of Resources</u></b>	<b><u>Deferred Inflow of Resources</u></b>
Difference between expected and actual experience \$	198,259	\$ 67,584
Changes in assumptions	253,067	0

- D. Pension Liabilities, Pension Expenses, Deferred Outflows of Resources and Deferred Inflow of Resources Related to Pensions: (Continued)**    \$140,920  
reported as deferred outflows of resources related to pensions resulting from Huntington Public Library contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2020. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

<b><u>Year Ending June 30,</u></b>	<b><u>Amount Recognized</u></b>
2020	\$ 231,492
2021	(188,617)
2022	(22,608)
2023	137,734
2024	<u>0</u>
Total	<u><u>\$ 158,001</u></u>

- E. Actuarial Assumptions:** The total pension liability at March 31, 2019 was determined by using an actuarial valuation as of April 1, 2018, with update procedures used to roll forward the total pension liability to March 31, 2019. The actuarial valuation used the following actuarial assumptions:

Inflation	2.50%
Salary increases	4.20%
Investment rate of return (net of investment expense, including inflation)	7.00%
Cost of living adjustments	1.30%

**HUNTINGTON PUBLIC LIBRARY  
NOTES TO FINANCIAL STATEMENTS

**NOTE 11:    Retirement Plan (Continued)**

- E.    Actuarial Assumptions: (Continued)**    Annuitant mortality rates are based on April 1, 2010 – March 31, 2015 System's experience with adjustments for mortality improvements based on MP-2014.

The actuarial assumptions used in the April 1, 2018 valuation are based on the results of an actuarial experience study for the period April 1, 2010 – March 31, 2015.

The long term expected rate of return on pension plan investments was determined using a building block method in which best-estimate ranges of expected future real rates of return (expected return, net of investment expenses and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the target asset allocation as of March 31, 2019 are summarized below:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
Domestic equity	36.00%	4.55%
International equity	14.00%	6.35%
Private equity	10.00%	7.50%
Real estate	10.00%	5.55%
Absolute return strategies	2.00%	3.75%
Opportunistic portfolio	3.00%	5.68%
Real assets	3.00%	5.29%
Bonds and mortgages	17.00%	1.31%
Cash	1.00%	(0.25%)
Inflation-Indexed bonds	4.00%	1.25%
Total	<u>100.00%</u>	

The real rate of return is net of the long-term inflation assumption of 2.5%

NOTES TO FINANCIAL STATEMENTS  
JUNE 30, 2019**

**NOTE 11:    Retirement Plan (Continued)**

**E.    Actuarial Assumptions: (Continued)**

*Discount Rate* – The discount rate used to calculate the total pension liability was 7.0%. The projection of cash flows used to determine the discount rate assumes that contributions from plan members will be made at the current contribution rates and that contributions from employers will be made at statutorily required rates, actuarially. Based upon the assumptions, the System’s fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

*Sensitivity of the Proportionate Share of the Net Pension Liability to the Discount Rate Assumption* – The following presents the current-period net pension liability of the Library, calculated using the current-period discount rate assumption of 7.0 percent, as well as what the net pension liability (asset) would be if it were calculated using a discount rate that is 1 percentage-point lower (6.0 percent) or 1 percentage-point higher (8.0 percent) than the current assumption:

	<b>1% Decrease (6.0%)</b>	<b>Current Assumption (7.0%)</b>	<b>1% Increase (8.0%)</b>
Library's proportionate share of the net pension liability	\$ 4,401,872	\$ 1,006,796	\$ (1,845,309)

	<u><b>Total</b></u>
Employers' total pension liability	\$ 189,803,429
Plan net position	<u>(182,718,124)</u>
Employers' net pension liability	<u><u>\$ 7,085,305</u></u>
Ratio of plan net position to the Employers' total pension liability	96.27%

**NOTE 12: Post-employment Benefits Other Than Pensions**

- A. Plan Description:** The New York State Department of Civil Service (DCS) administers the New York Health Insurance Program (NYSHIP) which provides health insurance to current and retired employees of New York State, and participating public authorities and local governmental units, such as the Huntington Public Library. NYSHIP offers comprehensive hospital, medical and prescription drug benefits. As administrator of NYSHIP, the DCS performs all administrative tasks and has the authority to establish and amend the benefit provisions offered. Annual benefit premiums charged to and paid by participating entities are generally the same, regardless of each individual employer's risk profile. The annual benefit premiums collected by DCS are then remitted to the health insurance carriers that comprise NYSHIP. NYSHIP is considered an agent multiple-employer defined benefit plan, it is not a separate entity or trust, and does not issue stand-alone financial statements. The Library, as a participant in the plan, recognizes these post-employment benefits on an accrual basis.

**HUNTINGTON PUBLIC LIBRARY  
NOTES TO FINANCIAL STATEMENTS

**NOTE 12:    Post-employment Benefits Other Than Pensions (Continued)**

- B.    Benefits Provided:** Contribution requirements are determined by the Library Board. For retirees hired on or before June 30, 1993 and whom have five or more years of service, the Library will pay 90% of the amount for a retiree's and their spouse's health insurance policy premium. For retirees hired on or before June 30, 1993, that have less than five years of service, the Library will pay 75% of the amount for a retiree's and their spouse's health insurance policy premium. For retirees hired after June 30 1993, and whom have ten years of service, the Library will pay 75% of the amount for a retiree's and their spouse's health insurance policy premium.

For the fiscal year ending June 30, 2019, Huntington Public Library recognized the cost of providing health insurance by recording its share of insurance premiums of \$381,204 (exclusive of Medicare B reimbursements) as an expenditure in the General Fund. The Library also reimburses retired employees and their spouses the full cost of Medicare deducted from their Social Security benefits, which amounted to \$85,805. The retiree's share of premiums for health insurance is withheld from their monthly NYS retirement pension payment.

As of July 1, 2017, the following employees were covered by the benefit terms:

Active employees	44
Inactive employees entitled to but not yet receiving benefit payments	0
Inactive employees or beneficiaries currently receiving benefit payments	<u>38</u>
Total	<u><u>82</u></u>

NOTES TO FINANCIAL STATEMENTS  
JUNE 30, 2019**

**NOTE 13: Commitments and Contingencies**

The Library leases a postage meter as well as Library space (known as the Station branch) at 1335 New York Avenue in Huntington Station. The original lease for space was signed during 2002 and continues until its expiration on June 30, 2022. However, in January 2018, the Library renegotiated the lease in order to be able to use the entirety of the premises. The new minimum monthly rental commitment increases from \$18,718 to \$33,213 over the lease term. In addition the Library is required to pay, as additional rent, 50% of the real estate taxes of the premises, plus an amount equal to 50% of any real estate tax increase over the base tax year of 1997-1998.

In 2016 the Library signed a three year lease for a postage meter. The lease agreement calls for monthly payments of \$228.

For the fiscal year ending June 30, 2019 the Library made rental payments for the equipment of \$2,562 and for the space at 1335 New York Avenue of \$401,551 (includes the real estate tax increase).

The future minimum lease commitments are detailed as follows:

<b>Year Ending June 30,</b>	<b>Postage Meter</b>	<b>Station Branch</b>	<b>Total Minimum Commitment</b>
2020	\$ 2,388	\$ 373,680	\$ 376,068

**NOTES TO FINANCIAL STATEMENTS**  
**JUNE 30, 2019**

**NOTE 14: Reconciliation of Fund Financial Statements to Government-Wide Financial Statements**

Total fund balance and the net change in fund balance of the Library's governmental funds differ from net position and changes in net position of the governmental activities reported in the statement of net position and statement of activities. This difference primarily results from the long-term economic focus of the statement of net position and statement of activities versus the current financial resources focus of the governmental fund balance sheet and statement of revenue, expenditures, and change in fund balance. The following are reconciliations of fund balance to net position and the net change in fund balance to the net change in net position:

**Total Fund Balance-Modified Accrual Basis** \$ 6,416,568

Amounts reported in the statement of net position are different because:

- Capital assets are not financial resources, and are not reported in the funds 4,431,600
- Deferred outflows on OPEB not reported in the funds 500,677
- Deferred outflows on pension is not reported in the funds 650,091
- Compensated absences, not anticipated to be paid within the next twelve months, are included as a liability (364,829)
- Net pension liability is included in the funds (1,006,796)
- The obligation for other post-employment benefits are not reported in the funds (10,786,712)
- Deferred inflows on OPEB is not reported in the funds (319,426)
- Deferred inflows on pension is not reported in the funds (351,170)

**Total Net Position-Full Accrual Basis** \$ (829,997)

**Net Change in Fund Balance-Modified Accrual Basis** \$ 386,944

Amounts reported in the statement of activities are different because:

- Capital outlays are reported as expenditures in the statement of revenue, expenditures, and changes in fund balance; in the statement of activities, these costs are allocated over their estimated useful lives as depreciation:
  - Capital outlay 547,648
  - Depreciation expense (280,534)
- (Increase)/decrease in the accruals for items reported as an expenditure in the statements of activities, not in the fund statements:
  - Compensated absences 27,566
  - Net pension expenses (96,409)
  - Post-employment health costs (446,166)

**Change in Net Position-Full Accrual Basis** \$ 139,049
